About Me

My name is Tomás Abreu, and I am a 22-year-old member of the Portuguese Air Force. I have always been passionate about technology, which led me to specialize in cybersecurity. My military career has taught me discipline, focus, and the ability to perform under pressure, skills that complement my technical expertise.

Skills

- DevOps
- Web Developer
- Vulnerability Analyst
- Cyber Threat INTEL Analyst

Education

Professional Programming Course in Computer Systems

Escola Secundária Gago Coutinho

2019 - 2022

My secondary education was marked by the way I fell in love with the IT field in general. However, the area of programming was the one that fascinated me the most and from an early age I realized that this would be my vocation.

- 600 hours of internship.
- 875 hours of IT classes.
- Representative of school students on the general council of the municipal chamber.

Advanced Cyber Defense Programmer Course.

Escola de Ciberdefesa & Instituto Politécnico de Beja

2023 - 2024

The Cyber Defence Operations Command (COCiber), in collaboration with the Polytechnic Institute of Beja (IPBeja), delivered this one-year course. During this period, the preparation of new cybersecurity programmers was outstanding, and we had the opportunity to apply our knowledge in practice through a professional internship at COCiber's facilities.

- 1000 hours of internship.
- 1020 hours of IT - Cybersecurity classes (OS, Netw, Dev, DB, etc)

Experience

DevOps - Full Stack Developer

Developers Department - COCiber

2024 -

A dedicated team focused on automating programming processes in various languages, the Developers Department supports all other sections of COCiber to streamline tasks.

- Participation in Locked Shield 2024

Cyber Threat Intelligence Analyst

Operational Intelligence Department - COCiber

2025 -

In the Cyber Intelligence team, we focus on fostering general awareness of various international news that may impact national infrastructures.

Certificates

CISCO
